- Bachelor's Degree in Computer Science (In Progress)

Citrus College (2023–2024)
- Associate of Science for Transfer in Computer Science (Graduated June 2024 with Honors)

Mt. San Antonio College (2019–2023)

Metropolitan State University of Denver (2018)

PROFILE

A dedicated and detail-oriented computer science student with a strong foundation in software development and data analysis. Experienced in customer service and administrative roles, with proven problem-solving skills and a commitment to delivering high-quality solutions. Proficient in Python, Java, and web development, with ongoing projects that demonstrate adaptability and technical expertise.

EXPERIENCE

Administrative Assistant
Associated Produce Dealers & Brokers of Los Angeles
January 2019 – Present

- Provided exceptional customer service, resolving client inquiries promptly.
- Managed accounts receivables, ensuring accurate and timely processing.
- Assisted with basic IT functions, troubleshooting technical issues.

Data Analysis/Software Developer
Luna Logistics LLC
June 2024 – Present

- Managing accounts receivables and performing data entry with high accuracy.
- Delivering top-tier customer service to clients and partners.
- Currently developing a freight cost calculator for the company's website.
- Designing and implementing interactive web features using HTML, CSS, and JavaScript to enhance user experience.

PROJECTS
Python Games
- Developed several Python-based games, including a text-based adventure game and a tic-tac-toe game.
- Demonstrated proficiency in Python programming, problem-solving, and logic implementation.
- Designed user-friendly interfaces and implemented game logic to enhance user experience.
Freight Calculator (In Development)
- Currently developing an interactive calculator for Luna Logistics LLC to estimate freight costs.
- Utilizing web development tools such as HTML, CSS, and JavaScript, alongside backend logic in Python.
- Focused on creating an accurate, efficient, and intuitive tool for client use.
